

Small Business Pulse Survey

Welcome to the Small Business Pulse Survey

The U.S. Census Bureau is requesting your assistance in understanding the impact of the COVID-19 (coronavirus) outbreak on your business. Your response is especially important right now as it helps policy makers, government officials, and businesses like yours understand the impacts of the Coronavirus. Please complete this short 16 question survey; it will take approximately 5 minutes.

This survey asks about the experience of your business over the last week, but also about the experience of your business since the start of the COVID-19 pandemic. The White House declared a national emergency because of the COVID-19 pandemic on March 13, 2020.

C. Electronic Census Bureau Surveys or Censuses

Under federal law, we protect the confidentiality of the data we collect. When you respond to a survey or census via the Internet, you may have to provide us personally identifiable information (PII) or business identifiable information (BII). For each survey and census, we provide an explanation to respondents about the confidentiality of the data and the laws that protect the data (e.g., Title 13, United States Code Section 9 (a)) protect against unauthorized disclosure under penalty of \$250,000 and up to 5 years in prison, or both.

When you respond to surveys or censuses over the Internet that collect identifiable information, Tier 2 technology is used. Personally identifiable information or business identifiable information collected in the course of a survey or census is not used to customize your online experience.

Once you access an online survey or census, we automatically collect information about how long it took you to complete the survey or census, which questions you answered, and how many times you logged into the survey or census. In addition, we collect data on navigation of the survey or census, which includes mouse clicks and any data entered onto the survey or census, whether or not the survey or census is completed and submitted. These data are used in aggregate to assess the usability of the survey or census, or for other authorized statistical purposes. They are protected under the same confidentiality procedures as response data.

All web data submissions are encrypted to strengthen further the protection of the information we collect online. Per the Federal Cybersecurity Enhancement Act of 2015, your data are protected from cybersecurity risks through screening of the systems that transmit your data.

Questions concerning this policy may be addressed to: ask.census.gov, attn: Policy Coordination Office.

BURDEN STATEMENT

We estimate this survey will take an average of 5 minutes to complete, including the time for reviewing and answering questions, searching existing data sources, and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of collection of information, including suggestions for reducing this burden, to:
